

3 & 5 Axis Offline Programmer / Production Engineer

Erodex (UK) Ltd are looking for a dynamic 3 & 5 Axis Offline Programmer / Production Engineer to join the team at our Darlaston site. To support the recent acquisition of 5 axis machinery we require a forward-thinking Engineer looking for their next step on the career ladder.

Erodex are currently on an ambitious roadmap regarding Continuous Improvement within our Graphite Machining Division and are seeking a likeminded ambitious individual to help drive forward these improvements.

Skills and Experience:

- Knowledge of Edgcam/Hypermill preferable however knowledge of other program writing software will be acceptable
- 5 axis machining experience is a necessity with previous exposure to creating programs and machining paths from Models
- Direct experience of working with Hurco & Mazak would be beneficial
- Experience of leading or working on CI programs would be advantageous
- At least 10 years machining experience, we are happy to consider people seeking a move away from a permanent machining role

This is a full-time, permanent position, 39 hours per week, working Monday to Thursday 7.30am to 4.30pm and Friday 8am to 1pm.

A comprehensive package will be offered for the right candidate.

Company sick pay scheme.

If you feel that you have the qualities and skills to succeed in this role then please apply today to HR@erodex.com

If you do not hear from us within 14 days, your application has unfortunately been unsuccessful.
