

Production Engineer

Erodex (UK) Ltd are looking for a dynamic Production Engineer to join the team at our Darlaston site.

Erodex are currently on an ambitious roadmap regarding Continuous Improvement within our Graphite Machining Division and are seeking a likeminded ambitious individual, reporting directly to the Operations Director to help drive forward these improvements.

Skills and Experience:

- Ability to program offline using Edgecam is essential
- Experience in machining, specifically high precision engineering
- Experience of leading or working on CI programs would be advantageous
- A desire to improve processes and challenge the status quo is a must
- Experience of machining graphite would be considered a significant advantage

Responsibilities:

- Offline programming of production parts to allow seamless transition into manufacturing
- Creation of method of manufacture and tooling plans
- Liaising with external vendors to maximise technologies and improve existing processes.

This is a full-time, permanent position, 39 hours per week, working Monday to Thursday 7.30am to 4.30pm and Friday 8am to 1pm.

Salary: Circa £40,000 per year.

Company sick pay scheme.

If you feel that you have the qualities and skills to succeed in this role then please apply today, by sending your CV to HR@erodex.com
